PLAINTIFF'S EXHIBIT 73

MEMORANDUM FOR DISCUSSION

November 12, 1963

Re our memorandum November 3, following is a broad outline of points on which an agreement with Allied can, in our opinion, be reached as we gather from preliminary conversations:

a) Bunge to have first refusal on all export sales of oil.

b) Bunge to have exclusive rights (if desired) to all sales, export and domestic, of tallow and lard.

c) Bunge to participate in PL-480 sales with back-to-back sales from Allied, if so desired.

d) Volume of sales to be minimum guaranteed of 500,000 tons per year with a remuneration varying from $2.- to 5.- per ton depending on the product.

e) Bunge will continue to purchase (and sell back-to-back to Allied) various products and to receive a remuneration of a minimum of $1. per ton. We can stipulate, if we so desire, that we purchase a minimum of 50% of their total requirements.

f) Revolving draft account against Railroad Bills of Lading to continue as at present.

g) Bunge to handle upto 75% of Allied's trading in oil futures. This could be done gradually between now and January 1, 1964.

h) On all trading in oil futures Allied to put up required cash margins.

i) Allied to provide Bunge with a daily copy of their C.E.A. report showing their total business in futures.

j) On registered warehouse receipts, Bunge to take any quantity upto the total amount owned by Allied which is now said to consist of 8/10,000 contracts of SBO and CSO for a total value of approximately $50 million. Bunge to place hedges and forward months against these "tickets".

k) Lawrence American Field Warehousing will increase their Fidelity Bond from $30 to 50 million if required. Whatever additional guarantees Bunge requires in the form of insurance can in all likelihood be arranged with Lawrence.

l) Designated, segregated, surveyed tanks containing oil pledged to Bunge to continue.

m) Financial statement prepared by auditors heretofore working for Allied to be furnished Bunge every three months.

m as to Bunge & Klein only

n) Monthly (perhaps weekly) report showing all commitments (long and short), cash commodity positions, purchases, sales, loans, inventories, merchandise, pledged to others, etc., to be furnished.

All the foregoing can be covered by a formal agreement spelling all terms and conditions etc. to be prepared by us.

2) Following are the points on which it appears that Allied will not go along:

a) To have their auditing done by a national concern such as H & S or Price Waterhouse.

b) To allow a representative of Bunge to be installed permanently in their office with full inspection powers.

c) To grant us as a matter of right the perogative of "running their business".

) Should an agreement be reached between us embodying the terms contained in paragraph 1) above, we would be expected to reciprocate in the following manner:

a) Financing oil at Bayonne to the full extent of the Lawrence Warehouse Fidelity Bond.

b) Make arrangements for the return to an individual member designated by Allied for a portion of the commission earned by us on futures transactions (this is legal according to rules of the N.Y.P.E. and to the Chicago Board of Trade.

4) Additional notes.

a) The possibility of obtaining a mortgage on equipment has not been fully explored.

b) The possibility exists of obtain United Automated Industries (holding company for Gobel et al) stocks.

c) Termination clause if so desired.

PLAINTIFF'S EXHIBIT 74

MEMORANDUM

November 8, 1963

To: Mr. W.C. Klein
From: H.D. Fornari and R.D. Forti
Subject: Relationship with Allied Crude Vegetable Oil Refining Corp.

1) Re A.D.A.'s letters to you of October 28, we are being pressed for a decision and it appears that a definite reply cannot be postponed much longer.

2) We have obtained copy of the Fidelity Bond covering the field warehouse at Bayonne, in the amount of $30,500,000.-, and we are of the opinion that the terms of this Bond provide satisfactory insurance. This warehouse, incidentally, is being taken over by the Lawrence Warehousing System which is an old established and substantial one. Our procedure of storage tank identification and production inspection in connection with each Warehouse Receipt also provides substantial safeguards.

3) During the six months of April/September, 1963, our relationship with Allied, in the form of buying for them, selling for them, scalping, financing, and futures handling, has produced a return of about $1,100,000.-, or about half of our total gross income for the period. The acquisition of the Drew complex by Continental Grain makes it all the more important that we maintain the turnover and income of the Oil Department at a satisfactorily high level, and we believe that a widening and strengthening of the relationship with Allied is the best way to reach this objective.

4) Subject to expert advice regarding the protection of the Fidelity Bond we would, therefore, recommend the implementation of a "package deal" with Allied on the following terms:

   a) making with Allied a clear agreement for our representing them on export sales. This could envisage a guaranteed tonnage turnover of 500,000 tons a year at $2.- per ton margin, or anyhow a $1 million remuneration. This agreement could also cover other aspects of our relationship, such as financing and purchasing raw materials for Allied's account.

   b) increasing financing of oil at Bayonne upto $20 million, always basis 80% of market, with interest at 7% plus a handling charge to be agreed upon.

5) We should appreciate the opportunity to discuss the above with you and to supply any additional required data at your earliest convenience.

as to Bunge + Klein only

PLAINTIFF'S EXHIBIT 75

September 30, 1963

MEMORANDUM

TO: Messrs. Forti and Fornari

FROM: Mr. H. G. Kenner

I would suggest that we have Superintendents Company verify the inventory represented by our warehouse receipts covering oil stored by Allied at Bayonne. The ostensible purpose for this inspection would be to confirm the inventory for the purpose of our six-month closing September 30, 1963.

I would further suggest that Allied not be informed of the intended visit. Do you agree with this procedure?

PLAINTIFF'S EXHIBIT 79

453e cc'd as to Bunge + Kleinerly

September 18, 1963

Mr. Anthony De Angelis, President
Allied Crude Vegetable Oil Refining Corporation
Foot of East 22nd Street
Bayonne, New Jersey

Dear Mr. De Angelis:

I have your letter of September 11 and wish to apologize for the delay in answering, due to my being away from the office on personal business.

May I first of all thank you for your wishes, which I heartily reciprocate. The relationship between our two firms has indeed been a long and friendly one, and it has, I believe, produced satisfactory results for your firm as well as ours. Obviously, I share your desire to see a continuation and eventual expansion of this relationship.

I have noted with interest what you write about a proposed agreement for large-scale financing, and fully appreciate your courtesy in first communicating with me. A program of such magnitude, however, would undoubtedly require weeks and possibly months of study and evaluation before a final decision could be reached, and at this moment, owing to the beginning of the crop movement and to the pressure of other pending matters, neither I nor my staff could do justice to such a comprehensive evaluation. I would express the hope, however, that any agreement you may now conclude may be left open to revision, so that we may at the earliest possible opportunity reconsider the matter together.

With kindest personal regards, I remain,

Very truly yours,

H. Kenner

Mr. C. R. Berg
New York Produce Exchange
2 Broadway
New York 4, New York

Dear Mr. Berg:

The following is for your confidential information:

"In connection with ex-pit transactions in cottonseed oil which we executed with Ralph N. Peters and Company, I today (8/26) had a conversation with our customer and I told him that the Exchange was questioning the transactions of August 13th, 14th and 15th. On August 13th, we sold 143 September cottonseed oil to Peters at 12.25 and on August 14th we repurchased 82 of these contracts at 12.39 and the remaining on August 15th at 12.36. Mr. Berg of the Produce Exchange had told me that he had asked Peters for an explanation of this transaction and Peters had replied that the trades of August 14th and 15th were to rectify a purchase made in error on August 13th. Mr. Berg asked me if I would verify that this was correct and write a letter to the Exchange stating that these trades were made to rectify an error. Our customer said that there was no error on his part, that when he bought cash oil on August 13th he had no idea that he would resell it on the 14th and 15th. He said he resold the oil because he was offered a profit on the transaction.

"Our customer said further that the same thing was true regarding the thousand cars which he bought ex-pit on Friday, August 23rd - 361 of these cars were resold to Peters principal on Monday, August 26th. Our customer stated that he had no knowledge that he would resell the oil on the 26th at the time he bought it on the 23rd. He stated that neither of these transactions involved a pre-arranged or "wash" sale, that he made a profit in both instances, and he did not know the reason why Peters principal had made these transactions."

Very truly yours,

In connection with ex-pit transactions in cottonseed oil which we executed on behalf of the Bunge Corporation with Ralph N. Peters and Company, I today had a conversation with Mr. Richard Forti of Bunge. I told Mr. Forti that the Exchange was questioning the transactions of August 13th, 14th and 15th. On August 13th, we sold 143 September cottonseed oil to Peters at 12.25 and on August 14th we repurchased 82 of these contracts at 12.39 and the remaining on August 15th at 12.36. Mr. Berg of the Produce Exchange had told me that he had asked Peters for an explanation of this transaction and Peters had replied that the trades of August 14th and 15th were to rectify a purchase made in error on August 13th. Mr. Berg asked me if I would verify that this was correct and write a letter to the Exchange stating that these trades were made to rectify an error. Mr. Forti said that there was no error on his part, that when he bought cash oil on August 13th he had no idea that he would resell it on the 14th and 15th. He said he resold the oil because he was offered a profit on the transaction. Mr. Forti said further that the same thing was true regarding the thousand cars which he bought ex-pit on Friday, August 23rd - 361 of these cars were resold to Peters' principal on Monday, August 26th. Mr. Forti stated that he had no knowledge that he would resell the oil on the 26th at the time he bought it on the 23rd. He stated that neither of these transactions involved a pre-arranged or "wash" sale, that he made a profit in both instances, and he did not know the reason why Peters principal had made these transactions.

MEMORANDUM

July 18, 1963

90001110

To: Mr. W.C. Klein
From: H.D. Fornari
Subject: Meeting with Ray Ioanes

1) Following arrangements made by Harold Osgood, who also was present, on July 16, 1963, between 4 and 4:25 P.M., I had an interview with Ray Ioanes, the essence of which is reported below, with verbatim quotations wherever possible and desirable.

2) Ray's reception was quite cordial and his tone and attitude very friendly and sedate throughout the conversation.

3) I began by bringing Ray up-to-date on the current situation of Pakistani shipments (on which subject I had last seen him a year ago and had subsequently sent him a memorandum) and he was very interested as he claimed not to be aware of present difficulties. We held a brief exchange concerning the desirability of having strictly C&F P.A.'s at least for East Pakistan where the great number of small buyers and their relative inexperience with freight bookings make the exporter's task unduly difficult and dangerous, and he indicated a certain willingness to consider amending the procedure for future P.A.'s.

4) At this point I guided the conversation to another subject:

F - "Of course I am only talking of East Pakistan, which is where we sold under this last P.A. about 15,000 tons. I guess you know what happened in West Pakistan".

I - "I've got a pretty good idea."

F - "You know then that 40,000 tons were sold there by Continental, Garnac, Amertrade, and Gersony, all presumably originating from Allied."

I - "Yes, I know."

F - "Meaning that we are good boys while others make sales and profits."

I - "Continental is getting out and won't finance Tino any more. They have got back a few million, and they're not going to do any more sales."

F - "But meantime they did 60,000 tons of oil to Spain and a big chunk to Pakistan".

I - "Spain I can't control but PL-480 is where I want to stop this combine. If three or four or five firms, all being supplied from the same source, account for 90% of the business, I think that if this were looked into it might be found to be a restraint of trade and this is certainly not the kind of a program that I have tried to develop."

F - "You are quite clear, and we are complying with this view of yours, but what about others".

O - "Others eat at the table while we watch in a corner."

I - "It takes time, but all firms have been told to lay off."

F - "I suppose I shouldn't ask you what their reactions were."

I - "That's right."

F - "At the same time I am sure you don't mean that one shouldn't do any business with a certain firm--buying or selling or financing--that would mean aiming to put them out of business."

I - "Of course not--that wouldn't be decent--what I object to is people just handling offers and then financing, and one person cornering or trying to corner U.S. oil exports under PL-480. After all, the government is paying for this oil, and we must make sure that the price is as low as possible. Don't you think that prices could be lower if there was more aggressive competition?"

F - "On this point allow me to take issue with you; I think prices have usually been very very low, at times even too low as compared to the going market."

I - "Well, off the record, but if I had to testify I will have to give the names, I know that at sometime in the past someone was bought off from offering on a PL-480 tender. These people just went to an outfit, and asked them if he had oil, and the guy said yes and if he was going to offer it at the tender and the guy said yes and at about what price, and the dumb guy told him, and they said here is 1/2¢ profit and we will take it all off your hands, and the guy sold it and they had the market left to themselves. I believe in our system of free competition and I think that anything that tends to reduce competition makes for higher prices. While if there is very strong competition prices have got to go down."

F - "We believe in this too, and even before you called it to our attention we already were not handling offers for any third parties, but of course we buy from them and sell to them and finance them the same as we would and do act towards anybody else--to refuse to deal with someone might in itself be a form of restraint of trade."

I - "Of course, and I don't want to black list anybody--I just want to see as much real competition as possible."

F - "Bearing in mind that if this field were left to crushers and refiners only, the Vegetable Oil Export Corporation would then certainly corner or try to corner the export market."

9050112

3/

I - "By all means, I don't want to see them get all the business either."

O - "In other words, there is no change in your viewpoint as explained to Walter Klein when we were here some months ago."

I - "None whatsoever."

F - "And you are aware of what we are doing in connection with this situation."

I - "Yes."

F - "And do I understand that you find our views and behavior satisfactory."

I - "Yes, definitely".

5) At this point I said I knew how busy he was and that I didn't want to take up any more of his time. Harold Osgood put in a word to the effect that he will hope to have lunch with Ray in the near future, and we parted with great cordiality.

Meeting with Ray Ioanes

This is a brief report of our meeting with Ray Ioanes which resulted from the request that Ray made to me in early April to meet with you. Also present were Walter Sikes, Director of the Fats & Oils Division, FAS, and Dan Tierney, Chief of Program Operations Branch, FAS.

Ray opened the meeting rather bluntly by asking for the details of our Spanish oil contract with Deingelis. You indicated you were not prepared on the details of any particular contract and I chided Ray that he should have indicated to me the subject of the meeting more definitively. You stated that you wanted it to appear right at the start that Bunge had not been dealing with Deingelis for about the last three months. In reply to Ray's question "Why", you said the basic reason was that [illegible] were fearful that he was over-extended financially. You also pointed out that our relations with him had been satisfactory although you felt it necessary to keep a careful watch on the situation.

Ray back-tracked and said that basically he wanted to talk about Bunge's participation in the export of oil under PL 480, particularly in relation to our business with Deingelis, and the Spanish oil contract for free dollars about which there were so many rumors. He said he was very much concerned about the fact that during 1962 Bunge had done somewhere between 80 to 90% of all the PL 480 vegetable oil authorizations.

He inquired specifically whether the Spanish oil contract was, in fact, on the basis of landed weights and grades and you replied that it was. This particular factor seemed to bother Ray considerably since he felt such sale terms were extremely unusual and he came back again to the point several times later in the meeting. When you answered "Yes", he asked if we ever sold grain on that basis.

Ray said he was very much concerned about a situation in which a "combine" was obtaining such a large percentage of the business because it indicated on its face that there was no real competition. He went on at length as to his responsibility, as Administrator FAS, and that he had continuously defended the use of private industry in PL 480 transactions on the basis that competition within the trade would result in the cheapest and best prices to the Department of Agriculture who were financing these sales.

He said that to him the lack of competition was so evident in the oil transactions that he was going to be hard pressed to continue to support this method of operation as against government to government transactions. He further stated that in the event he was forced to put oil on a government to government basis, such a decision would put the grain trade in jeopardy on all types of PL 480 transactions.

He inquired whether we had physical facilities for the production, handling, and warehousing of bulk oils and, if Bunge was going to participate in the oil business over the long run, why did we not build a refinery and storage facility. You said that, while we had dealt in vegetable oils for many years and hoped to continue, our principal business was grain and we had no intention of investing $10,000,000 in the oil business.

Ray said that following our sale to Spain the Spanish buyers took the position that the quality of U. S. oil was not to be relied on and their next purchase was approximately 50,000 tons of oils from behind the Iron Curtain. He repeated that our transaction appeared to have undone all their work in building up a market for U. S. oil in Spain.

On your question as to what Ray meant by a "combin[illegible] was vague on his definition but indicated it was a "combine" [illegible]ngelis with Bunge and other reputable companies like us who would finance DeAngelis' operations. He said DeAngelis did all the physical work and we did nothing but the paper work and the financing at a fat profit. Ray said that he was not only talking to us but was going to talk to others who were, or might be, in a similar position.

You pointed out that DeAngelis always seemed to have the oil for sale at the cheapest prices and that if you wanted to do the business it was necessary to acquire the supplies through him; that you had tried continually without success to obtain oil from the old line producers that could be offered at satisfactory prices. You said that you had no particular desire to do business with DeAngelis but did it only out of necessity. You said that you had only this week made a trip to the Mid-West to confer with a large oil producer on the possibility of obtaining supplies from him at satisfactory prices. You said further that everyone was aware that the big crushers all sold supplies to DeAngelis at good prices, often in excess of DeAngelis' sale prices, and mentioned Proctor & Gamble and Lever Bros.

You admitted that DeAngelis' reputation was not good and inquired as to what facts were available to show his unreliability. The answer to this was (1) the old "Flying Foam" case of about three years ago in which DeAngelis and Isbrandtsen Steamship Line were both temporarily black-listed from doing business with Agriculture; (2) the

sale of oil to CCC on which there were claims of leaking drums; and (3) the recent Spanish oil free-dollar sale.

Ray insisted that his real complaint was the lack of competition in the oil market and the combining of DeAngelis with other companies who would finance and support him in his activities. By reason of this operation, DeAngelis sets the market and competition does not have any free play. He repeated about three times in the course of the meeting: "I hope you will have better answers if you are asked to testify".

Meeting with Ray Loanes

Attached for the record is a brief report of our meeting with Ray Loanes yesterday.

I have since talked with Dan Tierney in connection with the names of the largest suppliers of oil under the PL 480 program. He informed me that following the meeting he rechecked his rough figures for the 1962 sales and finds that the percentage of Bunge sales discussed in the meeting (80 to 90%) was high. He advised that Bunge sales totalled approximately $53,000,000 or 59.3% of the total; Continental was next highest with $20,000,000, followed by Garnac at $6,000,000, and Gorsony Strauss at $4,000,000. There were also a number of other small suppliers.

I think you should know that I said to Dan that I felt, in all fairness, Ray should voice to the other purchasers from Delangelis -- as he said he would -- his feeling about such transactions. In other words, that it was unfair to bluntly tell us not to deal with De Angelis without advising the competition of the position which he took so vehemently with us.

I suggest that it might be well to have someone survey our PL 480 sales during the period to determine what percentage of the $53,000,000 represents oil purchased by us from Delangelis which will then, of course, show the balance having been purchased from other suppliers. This should be confined to PL 480 sales and not include any sales to CCC under other programs. You may or may not want to disclose this figure to Ray but I think that it might be very helpful at some future date.

If you have any other suggestions for me, I assume you will let me know.

Ray Ioanes
Walter Sikes
Dan Tierney
Ralph Eskildsen
Harold Osgood
Walter Klein

1. Off the record

2. How can we justify:

A) Doing 90% of all PL480 oil business during 1962. Increasing percentages past three years.

a. Only competitive offeror.
b. Sources high on %

B) Dealing with shady character like DeAngelis, who has been in serious trouble with the government, and who must be watched so closely.

a. Has he been proven guilty or just rumors?
b. Shipping case; Food for Peace; Spanish case.

C) Operating as part of "combine" without tanks, refinery or port facilities for oil.

a. Just one of front companies, adding nothing but finance and paperwork. Bigprofits.
b. No justification for being in business.
c. Why we do not build own facilities, like grain?

D) Jeopordizing whole PL480 system of free enterprise and competition.

a. Explain to investigating bodies.
b. FAS may have to recommend against private trade for oil and therefore grain.

E) Selling on delivered terms to Spain, price escalation to Pakistan.

a. How U.S.A. oil discredited.
b. Future inspection and sealed tanks.
c. Russian sales, 50,000 tons.

3. Reasons why dealing with Allied in the past:

A) Financing - Yes — Why?
B) Only offeror at lowest price. — Monopoly.
C) Best prices abroad. — Monopoly.
D) Efficient plant and location. — Why?
E) Risk taker.
F) All producers sell him - Cargill, Central Soya
G) Either work with him or not at all, as before and now.
H) Rumors versus facts. Sounds like Fountain Committee.
I) No "combine". "Allied chooses exporter based on financing and controls exports and has destroyed competition", says Ioanes. FAS must defend etc. Ioanes intends to talk to others of "combine", but we main one of past three years. Also talking to producers.

4. Why we stopped dealing with Allied. (Ioanes unaware)

A) Fear of overextended risks and speculation.
B) Spanish problem.
C) Not because of wrongdoing. Allied lowest seller

5. A) Sikes
Bad reputation in Spain.
Monopoly

B) Dan Tierney
Monopoly

C) Ioanes
Financing held monopoly together. Build facilities or get out of oil business.
Explain monopoly situation.
Even if above-board, looks bad and will be very difficult to explain.
Jeopardize whole program. Bunge Corporation very foolish if innocent. Why?
Huge profits unjustified for part played, against PL480.
Fountain Committee stopped because DeAngelis under investigation and USDA requested halt. How could we justify 90% position in face of known PL480 regulations?
Did we take proper care to supply good quality oil?
Business in wrong hands. Trying to rectify. Speaking to "combine" individually.

Why?

PLAINTIFF'S EXHIBIT 93

MEMORANDUM

February 27, 1963

To: Mr. Walter C. Klein
From: H. D. Fornari and R. D. Forti
Subject: Financing of registered Cottonseed Oil receipts

1) Since Allied is long on a hedged basis of about 700 Cottonseed Oil warehouse receipts in the New York Produce Exchange, and tenders are now being made, we have a proposition to handle these in the same way as we have recently handled 500 Chicago Soyabean Oil warehouse receipts.

2) We would take these receipts on an ex pit basis, meaning we would have them hedged against May, with a differential covering full carrying charges including interest at 5-1/2%, plus a profit for us of about $1.50 per ton.

3) The amount involved is about $1.8 million, and our margin, exclusive of interest gain, would be about $30,000.-, with no risk whatsoever.

4) Subject to your agreement, we intend to proceed with this transaction, and since we have to make a decision today before the close, we would appreciate your advising us at your earliest convenience.

as to Burge + Klein only

Gentlemen:

We would like to confirm our recent discussions as follows:

1) Allied will, prior to October 5, 1962, repay Bunge the amount of $2 million by redeeming oil at present pledged to Bunge under revolving account arrangement.

2) Bunge will deposit checks in the amount of $5 million, now held by Bunge as per attached schedule (A) showing amounts of individual checks and dates of agreed deposit, between the 1st and the 5th of October, 1962 at the rate of $1 million per day.

3) All merchandise purchased by Bunge and sold to Allied as per attached schedule (B) but as yet unshipped will be taken over by Allied and paid by Allied within one week after payment by Bunge.

4) Bunge will take over under revolving account arrangement about $12 million worth of various oils (loan value) in accordance with attached schedule (C) at the rate of about $2 million per day. This will be commenced upon signing of this agreement and be terminated within approximately one week.

5) Allied guarantees Bunge 100,000 tons of business prior to December 31, 1962 for which no additional financing will be required by Allied. That is such business will be in reduction of outstanding loans and advances. Accordingly, no further purchases or advances against merchandise will be required on the part of Bunge unless mutually agreed upon. Allied guarantees that all outstanding loans by Bunge will be reduced to a sum not exceeding $10 million by November 30th, 1962.

September 26, 1963

6) Allied further guarantees Bunge new business for 400,000 tons between January 1st, 1963 and September 30th, 1963. On these 500,000 tons new business, Allied guarantees a minimum of $3.- per ton, namely, a total of $1 million with the understanding that should sales not reach the intended amount of 500,000 tons, the margin per ton will be increased so as to reach an overall remuneration for Bunge of $1 million in any case. In addition to this, Bunge will continue to charge interest at the rate of 7% per annum on all monies advanced to Allied as heretofore.

7) Bunge agrees to expedite completion of other projects such as Mapleton, registered warehouse at Mapleton for Soyabean Oil, registered warehouse at Atlantic for Cottonseed Oil, etc.

8) Allied agrees to permit Bunge to conduct a monthly audit and survey of all pledged merchandise to insure compliance with security arrangements. Allied agrees to cooperate with Bunge so as to enable Bunge to obtain complete satisfaction in all aspects of Allied field warehousing activities such as insurance, custodianship and so forth.

9) Allied agrees to provide Bunge with monthly reports showing information as for example long and short positions (cash and futures), stocks of oil pledged to others, financial information such as P & L Statement (or Trial Balance), etc.

10) Both parties agree to execute whatever formal legal agreements are deemed necessary covering all of the above understanding on or before October 31, 1963.

11) Nothing contained herein shall obligate Bunge to make any loans or advances now or at any time hereafter or alter in any manner any of the terms or conditions covering any loans or advances, all of which shall continue to be payable on demand and be governed by the existing credit agreements between Bunge and Allied, and Mr. Anthony De Angelis as individual guarantor.

September 17, 1962

Mr. Walter C. Klein, President
Bunge Corporation
One Chase Manhattan Plaza
New York 5, New York

Dear Mr. Klein:

I will try to recap here all the questions contained in your letter of September 7 and try to comment as much as possible on each and every item. I have attached our current inventory listing the open purchases and sales; actual and future, as well as stocks on hand and all other information as exact as possible. The balance sheet as of August 30 will be coming on Wednesday as we are in the process of preparing same.

Our operations this past crop year will result in approximately a net profit to us of about $500,000.00. It should have been about three and a half million dollars as many adverse items affected this past crop year's operations, primarily the situation in Spain which is now behind us. Our Michael De Angelis is presently in Spain laying the groundwork for a new and vigorous program with the new Comisaria who happens to be a very close, personal friend of ours and I am firmly convinced that in this new crop year we shall do a very good business in Spain via Bunge. The Minister of Commerce has also been changed and our very good friend, Mr. Rodriguez Villa, who is the new Comisaria, is presently holding discussions with Mike. We are in the process of writing new specifications for both the crude and refined oil so that Spain will receive the best possible oil in bulk at the lowest possible prices. I shall be glad to go into this in detail with you any time you so desire with full explanations of my feelings and future business in Spain.

In reference to the new crop year, we have enclosed a breakdown of our opinion. We have also, as I have mentioned in another part of the enclosed papers, have sent the opinions of Mr. Oislander. Ours I feel are quite correct. We feel there will be approximately a million tons of which Pakistan, U.A.R., Turkey, Poland, Yugoslavia, Indonesia, Israel and a portion of Spain's requirements are for all matters and purposes, captive businesses for us via Bunge. We feel that at least 600,000 to 700,000 tons of this business is so-called captive business that we will do year in and year out due to various circumstances.

Atlantic Industries - This operation is just about ready to get underway. I would like to have you look at this operation, Mr. Klein, as this was my brainchild together with Richard Forte. I was the one who originally had the general idea when Richard Forte approached me some time back that he was looking for facilities to properly process all of his greases and tallows. I believe you

could not duplicate the installation you have here in Bayonne for at least a million dollars. It is one of the finest in the country for its particular basic operations. You have to see it to appreciate it, aside from the fact that you will have an excellent facility for a registered warehouse and storing of cottonseed oil which should be a good, profitable moneymaker at a very minimum investment for Bunge.

Needless to say, I cannot emphasize how much effort, not only expressed in dollars and cents, that I put into making this operation successful for Bunge Corp.

Mapleton Industries - We are somewhat missing the boat on Mapleton. Other people are starting to survey and use the installation for the possibility of using it as a storage warehouse for the distribution and refining of coconut oil and also for the storage and exporting of lard and allied products. I know that we were pushing on the Atlantic Industries. It is now completed but unfortunately we cannot drag on the project such as Mapleton as it must keep moving and, therefore, I propose that an immediate discussion should revolve around Bunge's possibilities in Mapleton Industries so that we can get this operation going with a minimum investment on Bunge's part, but, with a great profitable return instead of a large investment. At least, my desire sometimes that Bunge should become involved in these operations are not necessarily where large amounts of money are needed to invest. To the contrary; their minimum investments and with what I feel will be large possible returns. Aside from putting Bunge into a No. 1 position around the country in the handling of fats and oils and related products, especially those items which Bunge is not now specializing in such as coconut oil, etc.

Financing - In evaluating our overall position in the fats and oils field, one must not overlook, as I wrote you in my letter of October 9, 1961, we do a very large domestic business, probably as large as the export business that we do. We supply almost every major bakery east of Chicago. We do a great volume. This business we do day in and day out. Therefore, our overall position, both short and long, has to be taken into consideration as to our overall position. Sometimes it is erroneously misconstrued at Bunge that Bunge's position should be calculated separately. This is something which recently has lead to my first disagreements among my good friends, Richard and Harry, with whom I have had an excellent relationship during the last several years, gradually building it up to a very fine and strong association. Recently, I have had some very depressing nights brooding in that for the first time a disagreement arose between Mr. Forte, Mr. Fornari and myself. This disagreement apparently stems from the fact that our overall position in fats and oils is not one that is readily understood by Harry and Richard. I am not writing this in any manner, shape or form as criticism except that I feel they have been very severe with me on some

into recently when our position I feel was not fully understood. We have, Mr. Klein, to look to the new year to new crop business. Of course, for us here at Bayonne running a yearly business of about 250 million dollars, there can be no season or week's cutoff periods. We have to continue going. While a crop may end at a certain month, our business continues month after month. Therefore, it has been rather difficult to bring our account down to the relatively low figure it is now as compared to what it was some months ago.

We are now faced with an enormous problem which as been plaguing us for the last two or three months. We are in the process of doing sizeable business each week. A lot of new business is coming up. In fact, as of this writing, Tunisia just was awarded a P.A. for approximately five million dollars, which, of course, we are going to work very closely with the boys to do whatever we can. But the problem that has arisen is one of overall understanding and financing of our business.

Naturally, in order to be perfectly honest, I must give you our problems and our possible solution. Recently, we had discussions with the following firms: Staley, Procter, Hunko, Pacific Vegetable Oil, Faure and subsequent conversations to be held with Archer Daniels and Honeymead and Anderson Clayton. What we have asked these people is for them to store oil with us for use when and if business is at hand. In other words, if and when we make purchases from them, they should ship the merchandise to us. The merchandise will be held in trust for them in the various warehouses which are operated here by American Express and Harbor Tank Storage and when we use the merchandise, we will pay them the 80% balance - 20% being paid to them when the merchandise arrives here. At the time we need the merchandise, they will release to us on the payment of the balance of the monies which is due them. The interest at 4% is to be charged to us.

As of this writing, Procter and Gamble have agreed to store with us 25/30,000 tons to be turned over in six months. In other words, any purchase cannot remain in our custody over six months. Hunko is in the process of formulating a reply to us. Pacific Vegetable Oil has agreed to keep up to 10,000 tons of coconut oil here. H.M.F. Faure has agreed to keep 10,000 tons of coconut oil, Menhaden oil, soybean oil and lard. Anderson Clayton's Harry Dean is in New York at the present time for discussions along this line. We expect that Hunko, Div. of National Dairies, will come along with about 20/30,000 tons in the next day or so. I spoke to Mr. Scheiter of Staley this morning and he is awaiting my letter. He also looks favorably on such a move. It looks like all of the people will go along and agree to keep between 100/150,000 tons of product in our various registered warehouses at all times. This is one way to go about keeping stocks on hand for the extremely large volume of business that is to be done, both domestically and for export.

We don't want to do it this way. We would rather work along with Bunge but we have many problems and lately in the last two months, to put it honestly, something has happened at Bunge and I don't know what it is. I can't put my finger on it. Some days I have gone home deeply distressed to see that a relationship I have had with Richard Forte at times has reached a somewhat disagreeable point; a man who has helped me tremendously, and you also Mr. Klein, but I ask the reason why and I cannot come up with an answer at all in my own mind. We do not want to change our method of business.

I would gladly undertake to say that in the coming crop year I will guarantee that Bunge will do on their own, 500,000 tons minimum of export business in all types of fats and oils, both PL 480 and free dollars, with a guarantee of $2.00 to $3.00 per ton profit or markup. In exchange, I must have unequivocable support of Bunge; 100% down the line which may involve around ten to fifteen or possibly twenty million dollars of additional financing as, at the present moment, we have six or seven firms who are holding oil, who are screaming at me because we did not give them any export business and needless to say, it is very unpleasant. If we make a commitment with Bunge, we have always lived up to our commitment; so much so, that in this overall Gobel acquisition my personal stock, which Bunge holds a large block of, may well be worth to me five to ten million dollars.

Naturally, I have full faith and confidence in Bunge and they should have the same in me. I have had some very trying moments with some of the other exporters who are holding oil who say to me, if you are doing all the business with Bunge, let them hold the oil, and it has been very bad for me. Therefore, rather than get into the same position in this coming crop year, I must have Bunge stand 100% behind me as I want to stand behind them. I will guarantee that Bunge will do at least 500,000 tons of business. I ask you, Mr. Klein, for a reappraisal of our position, our future and the possibilities that exist for us. I want you to understand this in exactly the way that I am trying to explain it. We do not want to change our method of doing business. At the same time, we need your support and we need it now.

I would be glad to answer any and all questions. You are free to ask me any and all questions at any time. Many competitors are of course naturally envious of you and our association during the last few years and at times try to disrupt it. I hasten to give you all the information you have asked for. Please do not hesitate to call me any time on any question you may have.

I may add that nothing in this letter should be construed in any manner, shape or form as anything detrimental to the relationship that has been built up between

Mr. Walter C. Klein — 5 — September 17, 1962

Richard Forte, Harry Fornari and myself. On the other hand, it has been a long and pleasant one.

At the same time, I am completely depressed lately over the fact that my needs were sometimes misunderstood or misinterpreted. My ultimate object is to do a good job for Bunge. We are building here, to be completed by the end of the year, the largest refinery in the United States which Blaw Knox is presently half way through their construction project. It will be the largest and best in the United States.

We intend to do an enormous business in the years to come. I predict that next year will be the largest and best [illegible] have profitwise. I predict our next year's profits may approximate five to ten million dollars.

I would like to have your full support. At times there are several pressing matters. Hopleton is one. The oil that some of those New York importers are holding is another. Some of them have done very little business this year.

Naturally, they are pressing problems and it has been a rather unhappy several months with Richard and Harry pressing me to reduce Bunge's position that Bunge was uncovered with sales on some of the merchandise Bunge was holding, not understanding that we had the merchandise sold in our own business and Bunge is always covered with adequate margin.

Again, my best regards.

Very truly yours,

ALLIED CRUDE VEGETABLE OIL REF. CORP.

September 17, 1962

Mr. Walter C. Klein, President
Bunge Corporation
One Chase Manhattan Plaza
New York 5, New York

Dear Mr. Klein:

I will try to recap here all the questions contained in your letter of September 7 and try to comment as much as possible on each and every item. I have attached our current inventory listing the open purchases and sales; actual and future, as well as stocks on hand and all other information as exact as possible. The balance sheet as of August 30 will be coming on Wednesday as we are in the process of preparing same.

Our operations this past crop year will result in approximately a net profit to us of about $500,000.00 It should have been about three and a half million dollars as many adverse items affected this past crop year's operations, primarily the situation in Spain which is now behind us. Our Michael De Angelis is presently in Spain laying the groundwork for a new and vigorous program with the new Comisaria who happens to be a very close, personal friend of ours and I am firmly convinced that in this new crop year we shall do a very good business in Spain via Bunge. The Minister of Commerce has also been changed and our very good friend, Mr. Rodriguez Villa, who is the new Comisaria, is presently holding discussions with Mike. We are in the process of writing new specifications for both the crude and refined oil so that Spain will receive the best possible oil in bulk at the lowest possible prices. I shall be glad to go into this in detail with you any time you so desire with full explanations of my feelings and future business in Spain.

In reference to the new crop year, we have enclosed a breakdown of our opinion. We have also, as I have mentioned in another part of the enclosed papers, have sent the opinions of Mr. Oislander. Ours I feel are quite correct. We feel there will be approximately a million tons of which Pakistan, U.A.R., Turkey, Poland, Yugoslavia, Indonesia, Israel and a portion of Spain's requirements are for all matters and purposes, captive businesses for us via Bunge. We feel that at least 600,000 to 700,000 tons of this business is so-called captive business that we will do year in and year out due to various circumstances.

Atlantic Industries - This operation is just about ready to get underway. I would like to have you look at this operation, Mr. Klein, as this was my brainchild together with Richard Forte. I was the one who originally had the general idea when Richard Forte approached me some time back that he was looking for facilities to properly process all of his greases and tallows. I believe you

could not duplicate the installation you have here in Bayonne for at least a million dollars. It is one of the finest in the country for its particular basic operations. You have to see it to appreciate it, aside from the fact that you will have an excellent facility for a registered warehouse and storing of cottonseed oil which should be a good, profitable moneymaker at a very minimum investment for Bunge.

Needless to say, I cannot emphasize how much effort, not only expressed in dollars and cents, that I put into making this operation successful for Bunge Corp.

Mapleton Industries - We are somewhat missing the boat on Mapleton. Other people are starting to survey and use the installation for the possibility of using it as a storage warehouse for the distribution and refining of coconut oil and also for the storage and exporting of lard and allied products. I know that we were pushing on the Atlantic Industries. It is now completed but unfortunately, we cannot drag on the project such as Mapleton as it must keep moving and, therefore, I propose that an immediate discussion should revolve around Bunge's possibilities in Mapleton Industries so that we can get this operation going with a minimum investment on Bunge's part, but, with a great profitable return instead of a large investment. At least, my desire sometimes that Bunge should become involved in these operations are not necessarily where large amounts of money are needed to invest. To the contrary; their minimum investments and with what I feel will be large possible returns. Aside from putting Bunge into a No. 1 position around the country in the handling of fats and oils and related products, especially those items which Bunge is not now specializing in such as coconut oil, etc.

Financing - In evaluating our overall position in the fats and oils field, one must not overlook, as I wrote you in my letter of October 9, 1961, we do a very large domestic business, probably as large as the export business that we do. We supply almost every major bakery east of Chicago. We do a great volume. This business we do day in and day out. Therefore, our overall position, both short and long, has to be taken into consideration as to our overall position. Sometimes it is erroneously misconstrued at Bunge that Bunge's position should be calculated separately. This is something which recently has lead to my first disagreements among my good friends, Richard and Harry, with whom I have had an excellent relationship during the last several years, gradually building it up to a very fine and strong association. Recently, I have had some very depressing nights brooding in that for the first time a disagreement arose between Mr. Forte, Mr. Fornari and myself. This disagreement apparently stems from the fact that our overall position in fats and oils is not one that is readily understood by Harry and Richard. I am not writing this in any manner, shape or form as criticism except that I feel they have been very severe with me on some

points recently when our position I feel was not fully understood. We have, Mr. Klein, to look to the new year to new crop business. Of course, for us here at Bayonne running a yearly business of about 250 million dollars, there can be no season or week's cutoff periods. We have to continue going. While a crop may end at a certain month, our business continues month after month. Therefore, it has been rather difficult to bring our account down to the relatively low figure it is now as compared to what it was some months ago.

We are now faced with an enormous problem which as been plaguing me for the last two or three months. We are in the process of doing sizeable business each week. A lot of new business is coming up. In fact, as of this writing, Tunisia just was awarded a P.A. for approximately five million dollars, which, of course, we are going to work very closely with the boys to do whatever we can. But the problem that has arisen is one of overall understanding and financing of our business.

Naturally, in order to be perfectly honest, I must give you our problems and our possible solution. Recently, we had discussions with the following firms: Staley, Procter, Humko, Pacific Vegetable Oil, Faure and subsequent conversations to be held with Archer Daniels and Honeymead and Anderson Clayton. What we have asked these people is for them to store oil with us for use when and if business is at hand. In other words, if and when we make purchases from them, they should ship the merchandise to us. The merchandise will be held in trust for them in the various warehouses which are operated here by American Express and Harbor Tank Storage and when we use the merchandise, we will pay them the 80% balance - 20% being paid to them when the merchandise arrives here. At the time we need the merchandise, they will release to us on the payment of the balance of the monies which is due them. The interest at 4% is to be charged to us.

As of this writing, Procter and Gamble have agreed to store with us 25/30,000 tons to be turned over in six months. In other words, any purchase cannot remain in our custody over six months. Humko is in the process of formulating a reply to us. Pacific Vegetable Oil has agreed to keep up to 10,000 tons of coconut oil here. H.M.F. Faure has agreed to keep 10,000 tons of coconut oil, Menhaden oil, soybean oil and lard. Anderson Clayton's Harry Bean is in New York at the present time for discussions along this line. We expect that Humko, Div. of National Dairies, will come along with about 20/30,000 tons in the next day or so. I spoke to Mr. Scheiter of Staley this morning and he is awaiting my letter. He also looks favorably on such a move. It looks like all of the people will go along and agree to keep between 100/150,000 tons of product in our various registered warehouses at all times. This is one way to go about keeping stocks on hand for the extremely large volume of business that is to be done, both domestically and for export.

Mr. Walter C. Klein
President -4- September 17, 1962

We don't want to do it this way. We would rather work along with Bunge but we have many problems and lately in the last two months, to put it honestly, something has happened at Bunge and I don't know what it is. I can't put my finger on it. Some days I have gone home deeply distressed to see that a relationship I have had with Richard Forte at times has reached a somewhat disagreeable point; a man who has helped me tremendously, and you also Mr. Klein, but I ask the reason why and I cannot come up with an answer at all in my own mind. We do not want to change our method of business.

I would gladly undertake to say that in the coming crop year I will guarantee that Bunge will do on their own, 500,000 tons minimum of export business in all types of fats and oils, both PL 480 and free dollars, with a guarantee of $2.00 to $3.00 per ton profit or markup. In exchange, I must have unequivocable support of Bunge; 100% down the line which may involve around ten to fifteen or possibly twenty million dollars of additional financing as, at the present moment, we have six or seven firms who are holding oil, who are screaming at me because we did not give them any export business and needless to say, it is very unpleasant. If we make a commitment with Bunge, we have always lived up to our commitment; so much so, that in this overall Gobel acquisition my personal stock, which Bunge holds a large block of, may well be worth to me five to ten million dollars.

Naturally, I have full faith and confidence in Bunge and they should have the same in me. I have had some very trying moments with some of the other exporters who are holding oil who say to me, if you are doing all the business with Bunge, let them hold the oil, and it has been very bad for me. Therefore, rather than get into the same position in this coming crop year, I must have Bunge stand 100% behind me as I want to stand behind them. I will guarantee that Bunge will do at least 500,000 tons of business. I ask you, Mr. Klein, for a reappraisal of our position, our future and the possibilities that exist for us. I want you to understand this in exactly the way that I am trying to explain it. We do not want to change our method of doing business. At the same time, we need your support and we need it now.

I would be glad to answer any and all questions. You are free to ask me any and all questions at any time. Many competitors are of course naturally envious of you and our association during the last few years and at times try to disrupt it. I hasten to give you all the information you have asked for. Please do not hesitate to call me any time on any question you may have.

I may add that nothing in this letter should be construed in any manner, shape or form as anything detrimental to the relationship that has been built up between

Richard Forte, Harry Fornari and myself. On the other hand, it has been a long and pleasant one.

At the same time, I am completely depressed lately over the fact that my needs were sometimes misunderstood or misinterpreted. My ultimate object is to do a good job for Bunge. We are building here, to be completed by the end of the year, the largest refinery in the United States which Blaw Knox is presently half way through their construction project. It will be the largest and best in the United States.

We intend to do an enormous business in the years to come. I predict that next year will be the largest and best [illegible] have profitwise. I predict our next year's profits may approximate five to ten million dollars.

I would like to have your full support. At times there are several pressing matters. Mapleton is one. The oil that some of those New York exporters are holding is another. Some of them have done very little business this year.

Naturally, they are pressing problems and it has been a rather unhappy several months with Richard and Harry pressing me to reduce Bunge's position that Bunge was uncovered with sales on some of the merchandise Bunge was holding, not understanding that we had the merchandise sold in our own business and Bunge is always covered with adequate margin.

Again, my best regards.

Very truly yours,

*New York Produce Exchange closed out all open futures contracts as at close on November 19, 1963.

A futures contract is said to be "open" when it has been entered into and not yet liquidated by an offsetting transaction nor fulfilled by delivery.

The amount of open contracts for each commodity and contract market is obtained each business day by a tabulation of reports made by exchange clearing members. The aggregate of all long open contracts reported by clearing members equals the aggregate of all short open contracts reported. The open contract figures shown are for one side only, not the long and short sides combined.

Type 6-A denotes transactions reported as transfers of open contracts involving no change in ownership.

Type 6-B denotes transactions reported as trades made in connection with cash fats, oils and oil-seeds transactions or exchanges of futures contracts for cash fats, oils and oilseeds.

Source: Compiled from records of New York Produce Exchange, including letters to and from members advising of ex-pit transactions. In addition, Type "6-B" ex-pits for April 1963 includes 304 contracts based upon data contained in Trustees Exhibit 12 (Boyer) June 4, 1965 21-A examination. We have been unable to locate any documentation with respect to this ex-pit transaction.

Messrs. Merrill Lynch, Pierce, Fenner & Beane:

We have examined your statement of financial condition as of September 24, 1954. Our examination was made in accordance with generally accepted auditing standards and included a review of the system of internal accounting control and the procedures for safeguarding securities, and such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. The securities held by the Firm or by others were accounted for by physical count, confirmation, or other appropriate means. Certifications were obtained from depositaries with respect to the bank balances.

In our opinion, the above statement presents fairly the financial condition of the Firm at September 24, 1954, in conformity with generally accepted accounting principles.

FINANCIAL STATEMENT

Every year we are subject to a "surprise" audit by a firm of independent public accountants, at a date selected by such accountants, without prior notice to us, as are all other members of the New York Stock Exchange. No matter what particular time during the year this "surprise" audit may come, it is our policy to inform all of our customers of our financial condition at that time. Here is our financial statement as of September 24, 1954.

MERRILL LYNCH, PIERCE, FENNER & BEANE

INSURANCE DEPARTMENT

C O P Y

April 18, 1963

Allied Crude Vegetable Oil Refining Corporation,
Foot of 22nd Street,
Bayonne, New Jersey.

Attention: Mr. Ben Rotello

Gentlemen:

We have received from your office copy of William Stake & Company, Inc., Joint Policy No. WS-1 issued to Allied Crude Vegetable Oil Refining Corporation.

After review of same, we wish to confirm our decision, effective immediately, to provide insurance coverage under our own open policy for any and all goods and/or merchandise which is now pledged or shall be pledged in the future to Bunge Corporation, as collateral under the existing loan agreements between Bunge Corporation and Allied Crude Vegetable Oil Refining Corporation.

This decision applies not only to Bayonne, but to all East and Gulf Coast Storage Terminals as well.

In view of the foregoing, please advise Mr. Platt of your office to discontinue declaring stocks under the loan agreements to your underwriters.

Very truly yours

NEW YORK PRODUCE EXCHANGE

NO. 196 1063 Date DEC 23 1963 By C.R. Berg By: C.R. Berg SECRETARY

RECEIVED in store September 25 19 63 in Storage at **Bunge Corporation** Warehouse, located at Bayonne, New Jersey from **Bunge Corporation** 60,000 pounds Prime Bleachable Summer Yellow Cottonseed Oil New York Produce Exchange Contract Grade Prime Bleachable Summer Yellow which will be delivered to the order of **Bunge Corporation**, upon surrender of this receipt and payment of all charges.

This oil is stored subject to the provisions of Warehouse Receipt Act of the State of New Jersey in relation to warehousemen and subject to the Rules Regulating Transactions in Cottonseed Oil Futures Contracts Among Members of the New York Produce Exchange.

The warehouseman acknowledges that the oil so received into store complies with the requirements of the said rules of the said New York Produce Exchange and that said oil is tenderable on Prime Bleachable Summer Yellow Cottonseed Oil contracts for future delivery made under said rules, and the warehouseman agrees

(a) that he shall be liable for any loss in quantity of said oil except a loss resulting from one of the causes hereinafter specifically enumerated;

(b) that he shall be liable for any loss or injury to said oil making the said oil not tenderable on such contracts under said rules, except a loss or injury resulting from one of the causes hereinafter specifically enumerated;

(c) that he shall be liable for any loss specified in clause (a) and for any loss or injury specified in clause (b) whether such loss or injury could or could not have been avoided by the exercise of care or diligence of any degree;

(d) that any variation in the said oil making it not tenderable on such contracts under said rules shall be deemed a loss or injury.

The warehouseman shall not be liable for any loss or injury caused by tornado, earthquake, flood, windstorm, volcanic eruption, or sabotage, bombardment or any other loss or injury of any nature whatsoever caused by, due to, or arising out of acts of any enemy or enemies of the United States, nor, except as herein otherwise provided, for any loss or injury caused by fire and/or lightning.

The warehouseman agrees at the warehouseman's own expense to keep said oil insured for the current market value against loss or injury by fire and/or lightning for the benefit of the holder of this receipt.

Storage rates shall not exceed those provided in the Cottonseed Oil Futures Contracts rules and shall include the cost of fire and/or lightning insurance.

All disputes or controversies arising between the warehouseman and the holder of this receipt shall be settled by arbitration by the Committee on Cottonseed Products of the New York Produce Exchange and the award of such Committee shall be final.

Not good unless countersigned.

AENL BUNGE 12-3

717e

MEMORANDUM

TO: Mr. W. C. Klein

DATE: October 9, 1963

FROM: Messrs. R. D. Forti/H. D. Fornari

SUBJECT: Allied

1) We have received (for whatever it's worth) the statement which we requested from Tino (for comparison purposes we also are attaching the previous one).

2) He is vigorously pressing for a decision on the balance of the tallow deal which we discussed last week.

3) He would like to have a decision (favorable of course?!) by tomorrow.

4) Please advise.

as to Bunge & Klein only.

We have been unable to locate and have not been furnished with calculation sheets similar to data made available by Bunge. The above chart has been prepared based upon Continental data supplemented by use of the Bunge formula. No commission cost has been included with respect to the determination of indicated profit arising from futures transactions since such trades were cleared by Continental, whereas Bunge incurred commission charges in certain transactions.

[illegible] have been unable to locate and have not been furnished with calculation sheets similar to data made available by Bunge. [illegible] above chart has been prepared based upon Continental data supplemented by use of Bunge Formula. No commission cost has [illegible] included with respect to the determination of indicated profit arising from futures transactions since such trades were [illegible] by Continental, whereas Bunge incurred commission charges for clearance by Merrill Lynch in connection with [illegible] oil futures.

[illegible] have been unable to locate any invoices from Continental to Allied or Allied to Continental with respect to transactions [illegible] as the sale and purchase of 516 registered warehouse receipts on November 15 covered by S #6203 (included above) [illegible] (not included, since the receipts were still in Continental's possession at the close-out on November 19). [illegible] this transaction as a washout.

Mr. Broeneveld's work sheets have not been provided with regard to Transactions A and B. The calculation relating thereto have therefore been made by utilizing the formula he used in Transactions C-F as applied to the POM's and SOM's involved in A and B. Amounts designated as interest for transactions A and B represent the difference between total indicated profit and profit computed at .09 per 100 lbs. Note further that "Futures Transactions Bought" relating to Transaction A (SOM Nos. 7064, 7065, 7068 and 7074) were apparently "in pit" transactions since no documentation is available to indicate they were ex-pit.

*Computed on basis of total of 3,929 contracts. On August 23, Bunge bought 1,000 warehouse receipts and sold in an ex-pit transaction, 1,000 contracts (Transaction D). On August 26, in an ex-pit transaction, Bunge bought 361 contracts (Transaction E), although engaging in a transaction which it treated as a sale involving 1,000 registered warehouse receipts. The other 639 contracts were not purchased. Price (per 100 lbs.) computations relating to futures transactions designated as E have been based upon 361 contracts.

839e

* Computed on a basis of a total of 3,929 contracts. This differential is caused by the fact that during the period August 23-September 3, Bunge engaged in a series of four transactions with Allied in which it bought an aggregate of 1,639 warehouse receipts from Bunge and then sold an aggregate of 1,639. However, in the ex-pit transactions accompanying these warehouse receipt transactions, Bunge sold and then repurchased from Allied an aggregate of only 1,000 futures contracts. Thus, the grand total of warehouse receipts involved in these selected transactions between Bunge and Allied exceeds the total number of futures contracts involved in such transactions by 639.

	TOTAL	701	576						812933

* Average selling price for 30 March sold for day

** Average of day's high and low price

*** For purposes of this chart no consideration has been given to the fact that this ex-pit transaction was part of a registered warehouse receipt transaction with Allied and that Continental Grain had a total indicated profit of $77,261 on the overall transaction.

847e

* Computed on a basis of a total of 3,929 contracts. This differential is caused by the fact that during the period August 23-September 3, Bunge engaged in a series of four transactions with Allied in which it bought an aggregate of 1,639 warehouse receipts from Bunge and then sold an aggregate of 1,639. However, in the ex-pit transactions accompanying these warehouse receipt transactions, Bunge sold and then repurchased from Allied an aggregate of only 1,000 futures contracts. Thus, the grand total of warehouse receipts involved in these selected transactions between Bunge and Allied exceeds the total number of futures contracts involved in such transactions by 639.

Ira Haupt & Co.
111 Broadway
New York 6, New York

Attn: Mr. S. William Glassgold

Gentlemen:

This will acknowledge receipt of your letter of September 30, 1963 advising us of the following ex-pit transaction:

Bought: 2454 December '63 CSO Contracts @ 1293.
From : Ralph N. Peters & Co.

We note that you also state that the foregoing transaction was made in accordance with Rule 6(b) of the Cottonseed Oil Futures Contracts Rules involving an exchange of an equivalent quantity of processed PBSY cottonseed oil through a cash contract.

Yours very truly,

C. R. BERG
Managing Director
